

Norbert Ronai

Software Engineer

Software developer with 7+ years of experience in building, maintaining and updating web apps with high complexities. I have worked mainly with large, and medium-size, companies on various projects, showcasing my expertise in Javascript-based frameworks such as ReactJS, BackboneJS, JS vanilla, JQuery and JQuery. I am a skilled developer with a strong understanding of front-end development tech, capable of working with back-end technologies and the ability to work efficiently in a team.
